

Gas output up 19.5% on back of KG-D6

PRESS TRUST OF INDIA
New Delhi, July 23

INDIA'S NATURAL GAS production jumped 19.5% in June, as Reliance Industries and its partner BP ramped up output from their eastern offshore KG-D6 block, government data released on Friday showed.

India produced 2.77 billion cubic metres (BCM) of natural gas in June, up from 2.32 bcm in the same month last year, as per the data released by the Ministry of Petroleum and Natural Gas. This is the fifth straight month of output rising on a year-on-year basis.

"Increase in gas production is through contributions from D-34 field of KG-DWN-98/3, which commenced from December 18, 2020 (and) wells from satellite cluster (commenced with effect from April 25, 2021)," it said. Reliance is the operator of block KG-DWN-98/3 or KG-D6 in the Krishna Godavari basin.

The production from KG-D6 more than made up for a fall in the output from fields operated by Oil and Natural Gas Corporation, which pro-

duced 5.6% less gas at 1.68 bcm.

Production from fields operated by the private sector in the eastern offshore was 545.53 million cubic metres in June as compared to 45.62 mcm a year ago, the data showed. A field-wise break-up was not given.

India's crude oil production in June slipped 1.8% to 2.48 million tonne as state-owned ONGC and Oil India (OIL) produced less.

Oil refineries processed 5% more crude at 18.4 million tonne in June when compared to the year-ago period, when economic activity had almost come to a halt because of a stringent nationwide lockdown.

Private sector refiners produced 13.6% more crude at 6.9 million tonne, while public sector refiners processed 2.7% less crude at 10.04 million tonne.

This is because public sector refineries operated at 85.71% of their capacity, while private ones operated at 94.76%. The refineries produced 4% more fuel at 19.17 million tonnes in June.

Sebi consent not mandatory for compounding of offences under Section 24A of Act, says SC

PRESS TRUST OF INDIA
New Delhi, July 23

THE SUPREME COURT Friday held that the consent of the Securities and Exchange Board of India (Sebi) is not mandatory for compounding of offences under Section 24A of the Sebi Act, but taking views of the expert body is necessary for stability in the securities market and for investor protection.

A bench headed by Justice DY Chandrachud said though Sebi is not conferred with any authority to veto a decision for proceeding in trial offences, it is a regulatory and prosecuting agency, and the Securities Appellate Tribunal and the courts must obtain its views since it is an expert body.

It said it is clear Sebi's consent cannot be mandatory before the court in which the proceeding is pending, to exercise the power of compounding under Section 24A.

The apex court, while elucidating guidelines that such courts must take into account while adjudicating an application under Section 24A, said it was necessary to elicit the

views of Sebi in the interest of stability of the securities market and protection of investors.

The bench, also comprising Justice MR Shah, said Sebi has vital functions to discharge in maintaining an orderly and stable market to protect the interests of investors.

Therefore, the Sebi Act and the rules, regulations and circulars made or issued under the legislation, are constantly evolving with a concerted aim to enforce order in the securities market and promote its healthy growth while protecting investor wealth, it said.

"Its wide regulatory and adjudicatory powers, coupled with its expertise and information gathering mechanisms, imprints its decisions with a degree of credibility. The powers of the Court would necessarily have to align with SEBI's larger existential purpose," the bench said.

It said that the provisions of Section 24A must be read in a manner consistent with the object and purpose underlying the position of Sebi as an expert regulator.

Sebi, as the regulator, is en-

trusted with diverse roles and functions including the power to regulate the securities market, make regulations and to enforce the provisions of the Act, the top court said.

Observing that independent of initiating a prosecution, the bench said Sebi has been entrusted with wide ranging powers.

While the statute has entrusted the powers of compounding offences to the Court, as the case may be, before which the proceedings are pending, the view of SEBI as an expert regulator must necessarily be borne in mind by and the Court, and would be entitled to a degree of deference, it said.

The considerations and others which Sebi may place before the Court, would be of relevance in determining as to whether an application for compounding should be allowed, the apex court said.

"We, therefore, hold that before taking a decision on whether to compound an offence punishable under Section 24(1), the Court must obtain the views of SEBI for furnishing guidance to its ul-

imate decision. These views, unless manifestly arbitrary or mala fide, must be accorded a high degree of deference. The Court must be wary of substituting its own wisdom on the gravity of the offence or the impact on the markets, while discarding the expert opinion of the SEBI," the bench said.

Section 24A in The Securities and Exchange Board of India Act, 1992 states that, "Notwithstanding anything contained in the Code of Criminal Procedure, 1973 (2 of 1974), any offence punishable under this Act, not being an offence punishable with imprisonment only, or with imprisonment and also with fine, may either before or after the institution of any proceeding, be compounded by a Securities Appellate Tribunal or a court before which such proceedings are pending."

Phased reduction of alcoholic tariffs needed: Icrier report

FE BUREAU
Kochi, July 23

INDIA SHOULD IMPLEMENT phased reduction in tariffs for the alcoholic beverages (alco-bev) sector and create transparent policies, according to Indian Council for Research on International Economic Relations (Icrier).

In a report titled 'Developing Principles for Regulation of Alcoholic Beverages Sector in India', jointly developed with PLR Chambers, Icrier proposed a five-point policy to develop a transparent, predictable regulatory and pricing framework.

It said the government should focus on technology-enabled interventions, increase the use of data-driven models, engage in consultations with stakeholders, and implement phased reduction in tariffs.

Deepak Mishra, director and chief executive, Icrier, said,

"Excessive, unpredictable and opaque regulations and tax policies have contributed to high cost of doing business in India's alcoholic beverages sector. By analysing the best practices at home and abroad, this report has made the five broad policy recommendation that would go a long way in helping this sector."

India is one of the world's fastest growing markets for alcoholic beverages, with an estimated market size of \$52.5 billion in 2020. The market is expected to grow at a CAGR of 6.8% between 2020 and 2023. Production of alcoholic beverages increased by about 23.8% between 2015-16 and 2018-19 and the sector generated around 1.5 million jobs and \$48.8 billion in sales revenue in 2019, the report said.

This sector is among the top three revenue earning sectors of the states.

All 18-plus population expected to get jobs by December: Centre

PRESS TRUST OF INDIA
New Delhi, July 23

THE CENTRE ON Friday told the Lok Sabha that no fixed timeline can be indicated right now for the completion of the Covid-19 vaccination drive in view of the dynamic and evolving nature of the pandemic, but said it is expected that all beneficiaries aged 18 and above will be inoculated by December.

At the same time, the Centre asserted that the pace of vaccination in the country is among the fastest in the world.

The Centre's position on the pace of the vaccination drive was spelt out by Union Health Minister Mansukh Mandaviya. An identical reply was given by his deputy Bharati Pravin Pawar in the Lower House in response to a question by Congress member Rahul Gandhi and the TMC's Mala Roy on whether the government proposes to complete the full vaccination of all adults by the end of the year.

Pawar also said there has been no delay in entering into purchase agreements with domestic vaccine manufacturers, and advance payments have also been made for the supply orders placed with them.

Mandaviya said vaccination is an ongoing and dynamic process, which is being guided by the National Expert Group on Vaccine Administration for Covid-19 (NEGVAC) on the basis of concurrent scientific evidence.

"In view of the dynamic and evolving nature of the Covid-19 pandemic, no fixed timeline at present can be indicated for the completion of the vaccination drive. However, it is expected that all beneficiaries aged 18 years and above will be vaccinated by December 2021," he said.

Mandaviya said while there have been instances of vaccine wastage in states and Union Territories, extra doses have also been extracted from a given vial according to the Co-Win portal. "The vaccine doses wasted and maximum possible doses extracted beyond the labelled quantity are taken into account to arrive at vaccine wastage figures for a state," he said.

The minister was responding to a question on whether states/UTs are not keeping up the pace of vaccination and wasting the doses.

"Between May 1, 2021, and July 13, 2021, a total of 2.49 lakh doses were wasted, while 41.12 lakh extra doses were extracted beyond the labelled quantity," he said.

Asked whether the government is aware that many inoculation sites were closed down due to non-availability of vaccines, Pawar said there has been no shortage of vaccines and that the central government has been providing free supply of vaccines to states and UTs for administration to prioritised beneficiaries as recommended by NEGVAC.

Blinken to meet Modi, Jaishankar during India trip next week

PRESS TRUST OF INDIA
Washington/ New Delhi, July 23

US SECRETARY OF State Antony Blinken, during his maiden trip to India next week, will meet Prime Minister Narendra Modi and External Affairs Minister S Jaishankar to discuss a wide range of issues, including Indo-Pacific engagement, shared democratic values and cooperation on Covid-19 response efforts, his spokesperson said on Friday.

Blinken will also travel to Kuwait City during his foreign trip from July 26 to 29, which State Department spokesperson Ned Price said is to reaffirm America's commitment to strengthening partnerships and underscore cooperation on their shared priorities.

"In New Delhi on July 28, Secretary Blinken will meet External Affairs Minister S Jaishankar and Prime Minister Narendra Modi to discuss a wide range of issues, including continued cooperation on Covid-19 response efforts, Indo-Pacific engagement, shared regional security interests, shared democratic values and addressing the climate crisis," Price said.

In New Delhi, the Ministry of External Affairs (MEA) said Blinken will also meet National Security Adviser Ajit Doval. Secretary Blinken's visit is an opportunity to continue the high-level bilateral dialogue and bolster the India-US global strategic partnership, the MEA said in a press release.

"Both sides will review the robust and multifaceted India-US bilateral relations, and potential for consolidating them further," it said.

Discussions will focus on regional and global issues of mutual interest, including recovery from the Covid-19 pandemic, the Indo-Pacific region, Afghanistan and cooperation in the United Nations, it added.

It is expected that the evolving situation in Afghanistan will be a major focus of the discussions between the two sides.

Blinken's visit will take place at a time when the Taliban has pushed back the Afghan military and seized significant swaths of territory as the US nears the end of its withdrawal, ending nearly two-decade of its military presence in the war-torn country.

It will be Blinken's first visit to India after assuming charge as the US Secretary of State.
